

**TARIFFS FOR THE CONTINUOUS AND SPOT REGASIFICATION AND METERING
SERVICES
1ST OF JANUARY 2017 – 31ST OF DECEMBER 2017**

The tariff for the continuous and spot regasification and metering services offered on annual basis *TL* for customers that berth at the terminal, deliver liquefied natural gas, and pick up volumes of natural gas at the entry point connected to the national gas pipeline network at Cavarzere is given by the following formula:

$$TL = (Cqs + CM^R) * QS$$

where:

- *Cqs* is the commitment unit charge associated with the contractual quantities of LNG, expressed in euro/cubic meter of LNG/year;
- *CM^R* is the unit transitional charge associated with the metering of gas, expressed in euro/cubic meter of LNG/year;
- *QS* are the contractual quantities of LNG that can be delivered during the year, expressed in cubic meters of LNG/year;

A charge in kind equal to 0,4% of the LNG delivered quantities shall be paid by the customer to cover losses and consumptions in the LNG regassification chain.

TARIFF FOR THE CONTINUOUS AND SPOT REGASIFICATION SERVICE
1ST OF JANUARY 2017 - 31ST OF DECEMBER 2017

Table 1.1 Unit commitment charge associated with the contractual quantities of LNG

Cqs	EURO/year/cmliq
Cqs	27,375779

Table 1.2 Transitional unit charge for the metering service

CM^R	EURO/year/cmliq
CM ^R	0,263512

Table 1.3 Charge in kind

Losses and consumptions	
for each cm	0,40%

NUMERIC EXAMPLE

A customer is requesting the regasification service of one LNG cargo by 145.000 liquid cubic meter in Adriatic LNG Terminal (39,500 MJ/Sm³- liquid volume ration equal to 611).

The tariff for the regasification and metering services will be calculated according to the below example:

TARIFF FOR THE REGASIFICATION AND METERING CONTINUOUS AND SPOT SERVICE 1ST OF JANUARY 2017 - 31ST OF DECEMBER 2017

Commitment charge associated with the contractual quantities of LNG (tab. 1.1)

Contractual quantities		
QS	cmliq	145.000
Cqs	Euro/year/cmliq	27,375779
Charge	Euro	3.969.487,955

→

Charge (€)
3.969.487,955

Transitional charge for the metering service (tab. 1.2)

Metering		
QS	cmliq	145.000
CM ^R	Euro/year/cmliq	0,263512
Charge	Euro	38.209,240

→

Charge (€)
38.209,240

Charge in kind (tab. 1.3)

Losses and consumptions		
for each cm	%	0,40%
Charge	GJ	13.998,010

→

Charge (Gj)
13.998,010

Tariff for the regasification and metering services

EURO	Energy in GJ
4.007.697,195	13.998,010
